Cemsix corrugated fibre cement sheet accessories

Cembrit’s range of 6” profiled ridges, closers, flashings and bargeboards allow you to create a complete roof and façade system with Cembrit corrugated sheet. The range also includes special ridge ventilation pieces and rooflights that interlock with the sheets, as well as movement joints for the exceptionally large building.

Various lengths widths and girths are available for specific details or building types.

A truly integrated product range to make designing your building easier!

Coloured accessories are coated to match the 7 colours and pre-weathered Cemscape anthracite corrugated sheet. Accessories are of course available in natural grey.

Fibre cement accessories are covered by BBA certificate 03/4049.
